Page 15, line 17, please insert the following --Although certain presently preferred embodiments of the present invention have been specifically described herein, it will be apparaent to those skilled in the art to which the invention pertains that variations and modifications of the various embodiments shown and described herein may be made without departing from the spirit and scope of the invention. Accordingly, it is intended that the invention be limited only to the extent required by the appended claims and the applicable rules of law.--.

IN THE CLAIMS:

Please cancel claims 1-71 and replace with the following claims 72-111.:

Rule 1.126 68/ 68/ 72. A method for the treatment of disorders of the anterior segment of the eye comprising administering to a subject in need of such treatment a composition comprising an agent being high density lipoprotein (HDL).

69/ 73. A method according to claim 72, wherein the anterior segment of the eye is the corneal epithelium, stromal conjunctiva, and the glands present in both.
